

JuicyBox.

***The future of financing cultivation of medical
cannabis.***

Proposal Brief
Unleash the profit potential

We have two cultivation Facilities in **Portugal** :

- The first has all the necessary **licenses and permits to grow Medical Cannabis (THC)**
- The second has a **license to sell dried flower, oils and extracts worldwide.**
- On the territory of the first facility is where we install our modules in which Medical Cannabis is grown.

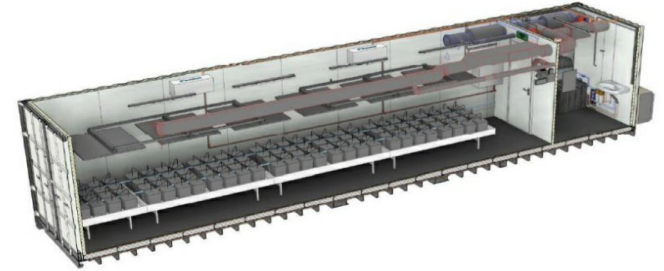

Offer

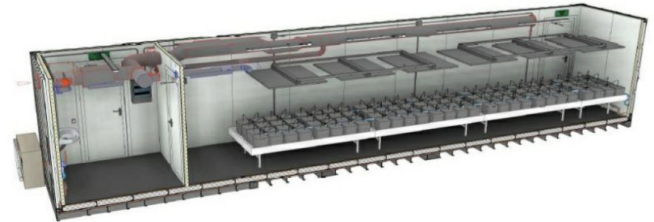

What JuicyBox offers:

- A 'from seed to sale' **contract for the production of a module (40ft container)**, fully equipped with hitech equipment for growing Medical Cannabis.
- The module is **fully automated in operation.**
- The production capacity is **112 plants at any time.**
- **Harvesting** from specific strains - **3 times per year.**

View 1:

View 2

- The **production period** of the module is **3 months**.
- After production, **within a week, the module is delivered to the company's facilities** in Portugal, where the plants are cloned, planted and grown to maturity.

7. The dimensions of the module, projection facades

Costs

- The cost per module is **EUR 80,000**.
- A **contract** is for **3 years**, under which **it pays out EUR 20,000 every 4 months**, regardless of force majeure or unforeseen circumstances.
- In addition, the module can be insured in Portugal and can also be equipped with CCTV.
- Upon signing the contract, a deposit **payment of EUR 45,000** must be made within 7 working days.
- The **remaining EUR 35,000**, will be paid after delivery of the module to the Portugal facility.

Note

Important note:

- The customer who signed the contract is not entitled to participate in the sale of Medical Cannabis directly.
- They can only offer a sales option and advise companies that have a licence to purchase Medical Cannabis.
